

BrightSmile

Web application

BrightSmile is an efficient and user-friendly website designed to streamline dental clinic operations. It facilitates appointment scheduling, digital prescriptions, x-ray management, and patient record-keeping, all in one platform.

Features

- Appointment Management: Patients can book, reschedule, or cancel appointments
- X-ray and Records Management: Store and access patient x-rays and medical records securely.
- Patient Portal: A dedicated section where patients can view their upcoming appointments, treatment history, prescriptions

Technology used

- Front-end: HTML, CSS, JavaScript
- Back-end: PHP, MySQL
